IMPORTANT NOTICE - Well Maintenance

The Village's water well will be out of operation from
Monday, September 29th to Thursday, October 2nd

On September 29th the well needs to be shut down for 4 days for some much-needed maintenance. Because of this, **no new water will be able to be treated during that time**, and all water will have to come from the reservoirs. While the Village will ensure that the reservoirs are full before hand, it is of the **utmost importance that during this time the entire Village does the best it can to conserve water so that we DO NOT RUN OUT**. We ask that you please do all that you can to help - no action is too small. The bulk water filling station will be out of order during this time as well.

Some ways you can conserve water in your own home:

- **DO NOT water the lawn or wash your car**
- Turn off the tap when it's not needed during tasks like washing dishes or brushing teeth
- Only run the dishwasher and washing machine when they're full and it is **necessary**
- Take shorter showers instead of baths whenever you can
